# MUZAMMAL ALI

Android App Developer | Mobile Application Development

muzammalali616@gmail.com • +92 301 5572528 • linkedin.com/in/muzammalali616

## PROFESSIONAL SUMMARY

Software Engineering graduate and Android app developer with hands-on experience from two mobile development internships, including a paid Android App Developer role. Proficient in Android Studio, object-oriented programming, databases, and the full software development lifecycle, with additional expertise in AI and computer vision. Passionate about building clean, user-friendly mobile applications and contributing as part of a professional development team.

## PROFESSIONAL EXPERIENCE

### Android App Developer Intern (Paid)

Evamp and Sanga | September 2026 – Present (2-month paid internship)

- Develop and enhance features for Android applications using Android Studio within a professional development team.
- Implement user interface screens and core app functionality based on detailed team requirements.
- Debug, test, and resolve issues to improve application stability, performance, and user experience.
- Collaborate with team members, follow professional development practices, and maintain clear technical documentation.

### Mobile App Development Intern

Elevoo Pathways

- Supported mobile application development tasks and gained practical exposure to the complete software development lifecycle.
- Collaborated with developers on application features, debugging, testing, and improving user-facing functionality.
- Applied programming and software engineering fundamentals to real-world development tasks.
- Documented work and learned professional development practices through active team collaboration.

## TECHNICAL SKILLS

| | |
|---|---|
| **Mobile Development:** | Android App Development, Android Studio, App Feature Development, Debugging & Testing |
| **Programming & SE:** | Object-Oriented Programming, Python, Databases, Software Development Lifecycle, Programming Fundamentals |
| **AI & Machine Learning:** | Machine Learning, Deep Learning, Computer Vision, Model Training & Evaluation, Data Visualization |
| **Tools & Documentation:** | Microsoft Office, Technical Documentation |

## EDUCATION

### Bachelor of Science in Software Engineering

Abbottabad University of Science and Technology | September 2021 – September 2025 | CGPA: 2.54

### F.Sc. Pre-Engineering

Cadet College Murree | August 2019 – April 2021 | 70%

## ACADEMIC PROJECTS

**Student Management System:** Developed a software system for managing student information, records, and related administrative tasks.
**Cross-Platform Parental Monitoring System:** Built an academic monitoring application focused on cross-platform functionality and software architecture.
**Automated Number Plate Recognition System:** Implemented a computer vision solution to detect and recognize vehicle number plates from images.
**Traffic Monitoring Using Computer Vision:** Applied computer vision techniques to analyze and monitor traffic-related visual data.
**Surveillance System – Motion Detection:** Developed a motion detection module to identify movement in surveillance video footage.

## SOFT SKILLS

Communication • Problem Solving • Teamwork • Technical Documentation • Time Management
